## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Prosecution Application***

1. The request filed on July 17, 2001 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/514,762 is acceptable and a CPA has been established. An action on the CPA follows.

### ***Election/Restrictions***

2. Applicant's election without traverse of Group III, claims 16 and 18, in Paper No. 9 is acknowledged.

### ***Specification***

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

4. The abstract of the disclosure is objected to because the abstract does not describe a method of manufacturing an intermediate base structure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details. A new abstract of the disclosure is required and must be presented on a separate sheet, apart from any other text.

Correction is required. See MPEP § 608.01(b).

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 16 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3729

There are numerous phrases and clauses in the claims that are vague, indefinite, and/or awkwardly and confusingly worded, and therefore, are not fully understood. The following are examples:

claim 16: the limitations “forming . . . second surface” and “creating . . . flex film” render the claim vague and indefinite. The limitations are contradicting the disclosure by forming vias in two separate steps. It’s unclear as to which forming via step corresponds with the disclosure.

Claim 16, line 5: the limitation “the first surface” lacks positive antecedent basis.

Claim 16, line 6: the limitation “a metal matrix embossing tool as described in claim 10” renders the claim vague and indefinite. The limitation fails to set forth metes and bounds of the embossing tool. Recommend incorporating the embossing tool limitations into claim 16.

Claim 18, line 5: the limitation “said raised areas” lacks positive antecedent basis.

Claim 18, line 8: the limitation “the film” lacks positive antecedent basis.

Claim 18, line 9: the limitation “the dielectric film” lacks positive antecedent basis.

### ***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 16 and 18, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by F. J. W. Jansen (US 2,427,144)

Jansen discloses applying force using an embossing tool (1 and 9) to form a plurality of vias.
